## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 12-13, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in the claims: a resolver filter system for resolver filtering of the resolver responses for providing a filtered resolver response, the mechanical excitation being applied to the resolver system for providing the resolver responses, and a gyro filter for gyro filtering of the gyro responses for providing filtered gyro responses, and specifically comprising the limitation of a controller comprising gimbal motors for receiving a control input and providing motion control to the elevation gimbal and the azimuth gimbal, the control input signal being a sum of the command and the filtered resolver responses and the filtered gyro responses.

Regarding claims 2-11 are allowable for the reason given in the claim because of their dependency status from the claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Citation of the relevant Prior Art***
